Computer Science Engineering MSc

```
Mathematics and information theory for engineers
6/202E

Introduction the new network communication technologies
6/202E

System security techniques and solutions
6/202E

Performance evaluation of infocommunication networks
6/220E

System architectures
6/202E
```

```
Computer science in engineering applications
4/200E

Internet of Things systems and technologies
4/200E

Management and organizational knowledges
5/202P

Paralell image processing and pattern recognition
6/202E

Logic design using hardware description language
6/202P

Introduction to economics and law
5/220P
```

```
Advanced switching and routing 1 (CCNP1)
6/202E

Multimedia networks
6/202P

Intelligent sensor networks
6/202P

Reconfigurable embedded systems
6/202P

Thesis 1
15/0010P
```

```
Data mining for engineers
6/202E

Advanced switching and routing 2 (CCNP2)
6/202E

Cloud service architectures and services
6/202P

Hardware-software codesign
6/004P

Microcontroller applications technology
6/202P

Thesis 2
15/0010P
```
